

WELCOME TO
SUFFOLK

Suffolk combines a rich heritage with a dynamic, forward-looking economy, making it one of the UK's most attractive regions to work, invest or grow a business.

Anchored by the Port of Felixstowe – the nation's largest container port – and powered by world-leading clean energy projects, Suffolk is a hub for global trade, innovation, and sustainability.

With thriving sectors in agri-food, clean energy, ports and logistics, alongside ambitious infrastructure and skills programmes, the county offers a compelling blend of existing opportunity, and long-term growth potential.

WHERE BIG IDEAS HAPPEN

In Suffolk, business growth isn't just about numbers – it's about people, partnerships, and the power of collaboration.

SUSTAINABLE GROWTH

POWERED BY COLLABORATION AND CONVERGENCE.

Suffolk's economic strategy is guided by EPIC Suffolk, a framework built on four key pillars: Economic Wellbeing, Productivity, Inclusivity, and Clean Growth.

These principles ensure that investment delivers not just financial returns, but also stronger communities, higher skills, and a greener future. Growth is enabled by a set of strategic enablers: attracting investment, boosting infrastructure and connectivity, driving enterprise and innovation, talent development and creating pride in place.

By aligning these enablers with high-growth sectors such as clean energy, agri-food, ports and logistics, and digital technology, Suffolk is creating a powerful ecosystem where industries converge, partners collaborate, and opportunities multiply.

All this work is underpinned by our pioneering approach to tech convergence. The integration of diverse technologies such as digital, AI, clean tech, robotics and satellite applications into established
